Our Company

FS Medical Supplies provides
Personal Protective Equipment
direct from the factory to
you, **anywhere in the world.**

Our Company

Providing Safety and Security For All

Our products serve businesses and people of all kinds. FS Medical Supplies provides high quality and high volume protective equipment as quickly as possible for your business to keep running smoothly.

Quality Assurance

All medical products are manufactured in FDA registered, ISO 13485: 2016 certified facilities. All products are FDA Registered and meet or exceed FDA, CE standards.

The COVID-19 pandemic has led to a massive influx of fraudulent brokers to the global market, the majority of whom are seeking to capitalize on underinformed purchasing parties. The dependency on Chinese manufacturing is a reality of the PPE market, and many opportunistic manufacturers and brokers are well aware of this, compounding the issue of limited supply by fraudulently claiming that products meet necessary quality standards, such as FDA, CE, or NIOSH certification.

This makes it near impossible for purchasing parties to distinguish between legitimate and fraudulent product, making it difficult to adeptly navigate the current PPE market without an experienced partner. That's where FS Medical Supplies comes in.

FS Medical Supplies provides Personal Protective Equipment direct from the factory to you, anywhere in the world. We have strong relationships with vetted factories throughout China, the majority of whom had been producing PPE for years prior to the COVID-19 pandemic. This allows us to negotiate with the most reliable factories in the industry to provide high-quality, high volume products for your PPE needs, always at competitive pricing.

Our dedicated staff is consistently up to date with the everchanging regulatory landscape and provides secure logistics from the factory to your doorstep. By eliminating middlemen and brokers, we are able to provide clients with pricing that beats the market, without the pain of navigating it.

N95 Respirators

Overview

While FS Medical Supplies provides a broad portfolio of PPE and COVID-19 test kits, this brochure details our current portfolio of N95 respirators. Delivery on all products listed is typically 10-14 days to anywhere in the world.

Our N95 respirators are made of high quality, hypoallergenic fabric. Respirators come with an activated carbon layer, non-woven fabric layer, double static cotton absorption layer and soft non-woven layer. Specific technicals are listed on each product page.

All N95 respirators are manufactured in FDA Registered, ISO 13485:2016 certified facilities that possess Chinese medical export licenses.

Read on to find out more on each of our specific products:

- NIOSH Certified N95 Respirator (w/ valve)
- NIOSH Ceritifed N95 Respirator (w/o valve)
- FDA EUA Approved N95 Respirator.

NIOSH Certified N95 Respirator (w/ valve)

Product Overview

Product is **NIOSH Certified**, a globally recognized stamp of product quality and authenticity.

Summary of Key Details:

- Product: NIOSH Certified N95 Respirator (w/ valve)
- Bacterial Filtration Efficiency (BFE): $\geq 95\%$
- Manufactured to order from China
- Direct factory relationship guarantees competitive pricing

All certificates and pricing information available upon letter of intent.

NIOSH Certified N95 Respirator

Product Overview

Product is **NIOSH Certified**, a globally recognized stamp of product quality and authenticity.

Summary of Key Details:

- Product: NIOSH Certified N95 Respirator (w/o valve)
- Bacterial Filtration Efficiency (BFE): ≥95%
- Manufactured to order from China
- Direct factory relationship guarantees competitive pricing
